## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Response to Amendment***

2. Examiner acknowledges the cancellation of claim 1 and addition of claims 22-30 cited in Amendment A dated 9-8-03.

### ***Election/Restrictions***

3. Applicant's election with traverse of Species I, the first solvent is specifically defined, the second solvent is not cited and no additive that forms a SEI is included, claims 2, 4, 8-14, 16-17, 29 in Paper dated 12-8-03 is acknowledged. The traversal is on the ground(s) that there would not be a burden to search all the species. This is not found persuasive because there would be a burden because different art would need to be applied for Species II, claims 3-4, 8-13, 15, 25-28, 30, specifying specifically the second solvent, the first solvent is not cited and containing no additive to form an SEI as well as when the species defines either the first or second solvent and contains an additive that forms a SEI.

The requirement is still deemed proper and is therefore made FINAL.

Art Unit: 1745

4. Claims 3, 5-7, 15, 18-28, 30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper filed 12-8-03.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 2, 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Yoshimitsu et al. (JP 61-74258, abstract).

Yoshimitsu et al. teaches a battery comprising a positive electrode comprising a titanium disulfide, a negative electrode and an electrolyte comprising a solvent mixture of 4-methyl-1,3-dioxolane, 1,2-dimethoxyethane [*second solvent having a viscosity less than or equal to 1.3*] and hexamethyl-phosphoramide [*first solvent*] in a voluminal ratio of 60:34.8:5.2.

Art Unit: 1745

7. Claims 4, 8-9, 11-13, 29 are rejected under 35 U.S.C. 102(b) as being anticipated by Mao (5,879,834).

Mao teaches in column 9, lines 7-18, a battery comprising an electrolyte comprising ethylene carbonate *[first solvent, having a dielectric constant greater than or equal to 20]*, diethyl carbonate *[second solvent]* and ethyl methyl carbonate *[second solvent]* in a volume ratio EC/DEC/EMC of 30/20/50. Mao teaches in column 11, lines 56-58, that the electrolyte comprises LiPF<sub>6</sub>. Mao teaches in column 8, lines 19-22, that the electrolyte was a solution of 1M LiPF<sub>6</sub> salt in EC/DEC volume ratio of 30/70.

***Allowable Subject Matter***

8. Claim 10 is allowed.

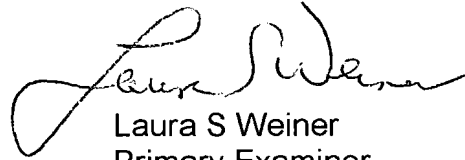

9. Claims 16-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura S Weiner whose telephone number is 571-272-1294. The examiner can normally be reached on M-F (6:30-4:00).
